

NEW MEXICO OIL CONSERVATION COMMISSION
PACKER SETTING REPORT

Adopted
1-1-68

RECEIVED

SEP 10 1974

O. C. C.
ARTESIA, OFFICE

I, Leroy Collins, being of lawful age and having full
Name of party making report

knowledge of the facts hereinbelow set out do state:

That I am employed by Coquina Oil Corporation in the capacity of

Production Foreman, that on July 1,, 1974

I personally supervised the setting of a Guiberson Uni Pkr VI, 2 3/8"x4 1/2",
the name of packer

in Coquina Oil Corporation's, J. M. State,
Operator of well Lease name

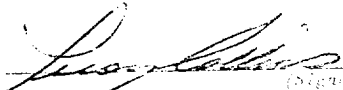

Well no. 1 located in the Burton Flat Strawn & Morrow field,

Eddy county, state of New Mexico, at a subsurface depth of

11,414 feet, said depth measurement having been furnished me by

personally supervised tally of tubing;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the downingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.
