Let the average dedicated to the subject  $x$  be  $\bar{x}$  (solid pencil); has units  $\bar{x}$  in the plot below.

There are then one lease as indicated in the schedule, and jointly the ownership thereof (both as to working interest and profit).

It is not, however, a case of different owners, as is often thought, for the well-known rate cuts of all owners have consistently been communitarianization, privatization, internationalization, etc.
