Gentlemen:

The C-103 filed with this office showing the 8 5/8" casing and the 4 1/2" casing, are being held 'For Record Only'. This does not mean they have been approved. For an approval, they must have all the information as stated in the Oil Conservation Division Rules & Regulations book, by Rule 107. A copy of this has been enclosed.

Your C-103 showing the intent to plug and abandon the well was received today. In order to receive an approval for this, we will need the C-105, Completion Report, filled out front and back, the Deviation Survey report, signed and notarized, and copies of all logs that have been run on the well.

TXO Production Corp. is subjected to punitive action for continued disregarding of applicable Division Rules.

Your earliest reply is requested.

Sincerely,

Leslie A. Clements
Supervisor District II
