*RE: Challenger-Rayroux Well No. 1, 660'
FS & EL, (Unit P) 19-T21S-27E,
Eddy County, New Mexico.*

Gentlemen:

Recently TXO was granted authorization to dually complete the subject well in both the Burton-Flat Morrow Gas Pool and East Carlsbad-Wolfcamp Gas Pool by Administrative Order MC-3005. Also by Division Order No. R-7319, dated July 19, 1983, the subject well was approved as an unorthodox gas well location in the Morrow zone. Our records however do not indicate that an exception for the Wolfcamp zone has been granted.

Therefore, TXO Production Corporation is hereby requested to make a proper unorthodox location filing for the Wolfcamp zone, pursuant to Division General Rule 104.F., where applicable for recompleted wells.

Should you have any questions concerning this matter, please contact me. Thank you.

Sincerely,

Michael E. Stogner
Chief Hearing Officer/Engineer
