If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Louis Dreyfus Natural Gas Corp. requests approval to transport, commingle, and off lease measure the gas produced from this well. The gas is commingled with gas from other wells (see attached list of wells), and compressed at a compressor located in the NE/SE quarter of Section 33, T-22S, R-26E in Eddy County, NM. It is then measured at Highlands Gas Corporation's Huber Treating Facility located in the SE/SE quarter of Section 15, T-23S, R-26E in Eddy County, NM. This well has an allocation/check meter on location that is calibrated each quarter by a certified technician.

I hereby certify that the foregoing is true and correct
