Van,

As per our conversation October 22, 2002 the well sign at the Penlon 22I State 1Y has been corrected and a dry hole marker is in place at the Penlon 22I State 1.

Thank you,

Vivian Rodriguez

Artesia NM 88210-

Dear Operator:

The following inspection(s) indicate one or more violations as described in the detail section below. The inspection(s) indicates that the well, equipment, location or operational status failed to meet standards of the New Mexico Oil Conservation Division. To comply with standards imposed by Rules and Regulations of the Division, corrective action must be taken immediately and the situation brought into compliance. The detail section below indicates preliminary findings and/or probable nature of the violation. This determination is based on an inspection of your well or facility by an inspector employed by the Oil Conservation Division.

Please notify the proper district office of the Division of the date corrective actions are scheduled to be made so that arrangements can be made to reinspect the well and/or facility.

INSPECTION DETAIL SECTION

PENLON 22I STATE 001Y			I-22-20S-27E	30-015-31960-00-00		
Inspection Date	Type Inspection	Inspector	Violation?	*Significant Non-Compliance?	Corrective Action Due By:	Inspection No.
09/05/2002	Routine/Periodic	Gerry Guye	Yes	No	12/9/2002	iGEG0224852750
Comments on Inspection:		Well sign reflects the API No. of original well which is plugged. CORRECT API SHOULD BE 30-015-31960. No visible Dry Hole Marker on original well.				

Thank you for your prompt attention to this matter and your efforts in helping to protect our environment and the infra-structure of the oil and gas industry.

Sincerely,
