Eddy County, New Mexico

New Mexico Oil Conservation Commission
Drawer DD
Artesia, New Mexico 88210

Attn: Mr. W. A. Gressett

Gentlemen:

RECEIVED

FEB 27 1978

O. C. C.
ARTESIA, OFFICE

Attached are Forms C-103 outlining work to date and proposed change in procedure to sidetrack the subject well.

It should be noted that at the kick-off point of 1225', this wellbore has a deflection from vertical of 5°. Therefore, as shown in the attached figure, in order to assure that the new wellbore will exceed the old wellbore at any vertical depth, an angle in excess of 5° from vertical will be required.

Yours very truly,

J. M. HUBER CORPORATION

Robert G. Setzler
District Production Manager
