Gentlemen:

The enclosed film and five folders contains the results of our Magnetic Multishot survey job no. MS-6729, Huber Federal lease, well no. 1, Wildcat field, in Eddy County, New Mexico on March 5, 1977. This survey was from 2,517 feet to a depth of 6,733 feet.

One of these folders contains the original of the computation sheets, field data sheet, certification. Bottom hole location has been plotted in relation to surface location on the certified plat furnished by you and copies of same have been included in all folders.

The operator on this survey was Joel Cass.
It has been a pleasure to perform this survey for you.

Very truly yours,

SPERRY-SUN, INC.
