Re: Carlsbad "7" #1
690' FWL & 760' FSL,
Sec. 7, T-22-S, R-27-E
Eddy Co., New Mexico

Gentlemen:

Enclosed is our application to drill caption well. This unorthodox location along with our forced pooling request was presented at a New Mexico Oil Conservation Commission hearing on May 25, 1977. We have been advised by telephone that the Commission has approved this unorthodox location along with our request for the forced pooling. The material presented at the above hearing is on file in Sante Fe. In the event you need this material for your records, we will have the material reproduced.

This location is located in the City of Carlsbad sub-division. We are furnishing you a copy of the sub-division plat along a list of owners of the tracts in the West half of Sec. 7 that has been dedicated to the pro-ration unit of the above well.

In the event something further is needed prior to your approval of this application, please advise.

Yours truly,
C & K Petroleum, Inc.
