GARY, ATTACHED ARE COPIES OF THAT CBL LOG ON THE LAKEY #1 WELL THAT SHOWS THE CEMENT TOP BETWEEN THE 75/8" INTERMEDIATE CASING AND THE 10 3/4" SURFACE CASING AT 2040' ($\pm$). THIS IS ABOUT 375' ABOVE THE 10 3/4" SHOE WHICH IS AT 2415'.

I ONLY HAD ONE (1) COPY OF THIS LOG AND SENT IT TO OUR FOREMAN WHO WILL BE PEXING THE WELL (JEFF PICKETT). HE CAN SHOW IT TO THE STATE REP. ON LOCATION.

Thanks again
Kevin Connell
