ARTESIA, OFFICE

STATE OF TEXAS

COUNTY OF MIDLAND

I, Russell J. Ramsland, first being duly sworn according to law state:

1. I presently serve as President of Dinero Operating Company, and am authorized to make this affidavit on its behalf.

2. I have made or caused to be made, pursuant to my instructions, a diligent search of all the following records: Company well records, New Mexico Oil Conservation Commission well records, New Mexico Oil and Gas Engineering Committee Production Records, Oil and Gas Accounting Commission Tax Rates, Oil and Gas Scouting Reports, Rules and Regulations of Oil Conservation Division of the State of New Mexico, and Application Lease Ownership Records, which are reasonably available and contain information relevant to the determination of the subject well eligibility for the new onshore well price under Section 102 of the Natural Gas Policy Act of 1978.

3. I certify that I have this day mailed or delivered to the appropriate purchaser, in accordance with Section 273.202 of the Commission's Regulations, as well as to all other parties to the Joint Operating Agreement as required by Provisions of Subpart B, Part 274.201 (C) of the Commission's Regulations, a copy of FERC Form 121 and New Mexico State Form C-132. All working interest owners names and addresses are shown on the enclosed Exhibit "A".

4. I hereby certify that the collections made pursuant to the interim collections procedure under Section 273.202 of the Commission's Regulations will either be placed in escrow or secured by a surety bond; and agree and undertake to comply with the refund provisions of Part 273 under the NGPA insofar as they are applicable to the collections for the well identified in the affidavit.

5. I have concluded that to the best of my information, knowledge, and belief, there is no marker well within 2.5 miles of the well for which I seek a determination which has a completion location less than 1,000 feet above the completion location of the new well identified in the affidavit.

6. I have no knowledge of any other information not described in the application which is inconsistent with my conclusions.

7. This application is for the following well:
