

MULTI-POINT SURFACE USE AND OPERATIONS PLAN
SANTA FE ENERGY COMPANY
Malaga Fed Com No. 1
2310' FWL, 990' FSL
Section 1, T-24S, R-28E
Eddy County, New Mexico

This plan is submitted with Form 3160-3, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to be followed by rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effects associated with the operation.

1. EXISTING ROADS.

- A. Exhibit E is a topographic map of a scale of approximately one inch to 2000' which shows location of the proposed wellsite and roads in the vicinity. The proposed location is situated approximately 2 miles east of Malaga, New Mexico.

DIRECTIONS:

1. From intersection of County Road 720 and Hwy 285 in Malaga, New Mexico proceed east on 720 for 1 mile.
2. Turn left (north) one mile.
3. Road turns right. Follow road across river to location on left hand side.

2. PLANNED ACCESS ROAD.

A 14' wide access road will extend from an existing road in Section 1 into the well site in Section 1.

3. LOCATION OF EXISTING WELLS.

- A. The well locations in the vicinity of the proposed well are shown in Exhibit F.
