This well was perforated, acidized, and sand fractured in June, 1991.  
Only a portion of the frac flowed back, without a good test of the zone.  
A pumping unit was set and hooked to SPS. The well was put on pump 7 AM,  
7-15-91, testing to tanks. Gas is being measured, then flared, waiting  
on gas sales line (Continental Natural Gas).

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
