(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log Form)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Texaco proposes to set an 8-5/8" 32#/ft intermediate casing string to a depth of +/- 5 200'. The APD called for the intermediate casing to be set at +/- 4 400'. The reason for setting the pipe deeper is to protect the production string from an offset disposal well.

14. I hereby certify that the foregoing is true and correct.
