OK
AR — Devon Energy Corporation (Nevada) plans to commence drilling operations on the Todd "24J" Federal #10 within the month. This is to notify you of the change in drilling operations in that we want to drill this well to 8500' rather than 8350'.

Also, instead of bringing the road in from the Todd "25B" Federal #2 as stated on the original APD, we intend to extend the road from the Todd "24G" Federal #7. This will result in less surface disturbance and lower cost. Furthermore, as this route has already been arched and is on the same lease, no additional ROW will be required.

New directions are as follows: Travel west from Jal, NM about 35 miles on SH #128 to County Road #798. Turn north on County Road #798 and go about 3.6 miles. Turn right (east) onto existing lease road for 0.5 mile. Turn south for 0.2 mile, east for 0.1 mile, then south for 1.0 mile to location.

Please substitute the attached as Exhibit 3 on our original APD.
