RE:           **Shut-in Notice for the Remuda Basin State #9. Located in Unit M,  
Section 30, Township 23 South, Range 30 East, Eddy Co., New Mexico**

Dear Sirs/Madams,

In reference to the above well, forms C-104 (Request for Allowable and Authorization to Transport Testing Allowable and New Well Applications) are being returned unapproved. Due to that fact that we have been unsuccessful in having Texaco respond in a timely matter with this and regulatory issues for other wells, **it is ordered that the Remuda Basin State # 9 well is to remain shut-in until compliance on all regulatory issues are met.** The following is a list of items that the OCD has not yet received for this particular well.

- Complete set of electric logs run on well.

Please feel free to contact me about this matter if you have any questions.

Respectfully Yours,

Bryan G. Arrant  
District II Geologist
