1. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work,)*.

Texaco Exploration and Production, Inc. is respectfully requests administrative approval to ammend the NMOCD commingling order PLC-123 to surface commingle production from the Remuda Basin State #9 (Unit Letter N, 660' FSL and 1980' FWL, Sec. 30, T-23-S, R-30-E), #10 (Unit Letter M, 825' FSL and 825' FWL, Sec. 30, T-23-S, R-30-E), and any other new drilled wells on this lease in the west half of Section 30, into the Remuda Basin Central tank battery (Unit Letter O, Sec. 19, T-23-S, R-30-E). The lease is operated by Texaco and has 50% of the gross working interest in these two wells. Production will be allocated back according to well tests.

initially, the wells will tested at a temporary tester located at Remuda Basin State #3 (Unit Letter K, Sec. 30 T-23-S, R-30-E). From there, they will tie into the #3 flowline and produce into the State separator at the central tank battery. At this time, facilities are being ordered to build the Remuda Basin Satellite that will ake in production from wells #3, #9, #10, and any other wells that will be drilled on this lease in the west half of Section 30. The satallite will consist of a production and test vessel for allocating production.

The API gravity of the wells is 36 @ 60 degrees and are completed in the SW Forty Niner Ridge Delaware pool. Current well tests are as follows:

Remuda Basin State #9 27 Oil 238 H2O 21 MCF
Remuda Basin State #10 53 Oil 200 H2O 61 MCF

The oil will be sold by truck to Equillon and the produced water will be injected into a disposal well, as is the current produced water from the battery. The gas will be sold to Highland at a meter sales point located near the future satallite. If you have any questions, please feel free to contact any of the following:
