Hobbs, N. M.

Re: Pecos Irrigation No. 1  
NE  $\frac{1}{4}$  SE  $\frac{1}{4}$  15-25S-28 E  
Eddy County, N. M

Dear Sir:

We enclose herewith copy of log of the above well. We are down 3137 feet in a formation that appears to be sand and lime and from which we are getting a considerable amount of gas, the amount of which has not yet been determined, but estimated to be between one and one and one-half million cubic feet. We set 2 inch tubing to the bottom of the hole with a packer at 3052 to shut off water, and we are now swabbing water out of the formation.

Yours very truly,

*W. A. Snyder*

WAS/M
