

September 23, 1957

Aldridge & Stroud, Inc.
P. O. Box 962
Odessa, Texas

Dear Sir:

I am writing you in regard to your R&A on your Signal State, Well No. 2, in Unit N, Sec. 28-25S-28E.

On August 9, 1956, we received form C-103 giving your plugging program. Your plugging program from bottom of hole to 300' ft. is O.K. However, before this well can be converted into a water well, you will need to submit an Affidavit of Responsibility signed by the land owner. On December 26, 1956, we sent you the forms explaining just what you would need to do.

Will you please give this your prompt attention.

If at any time we can be of service to you please let us know.

Yours very truly,

OIL CONSERVATION COMMISSION

M. L. Armstrong,
Superivsor, Distrist No. 2
