Gentlemen:

With reference to the Oil Conservation Commission letter dated March 9, 1959 in regard to plugging Signal State Well, Unit N, Section 28, Township 25S, Range 28E, NMPN, Eddy County, New Mexico we are aware that this well has not been plugged and at this time have a man in the New Mexico area trying to contact the people who own this land to get them to fill in the forms for leaving this as a water well for the ranch. As soon as we are able to contact them you will hear from us. However, if we are not able to contact them we will plug this hole from 145 to surface of ground.

Thank you for your consideration.

Very truly yours,

ALDRIDGE & STROUD, INC.
