Reinstate SWD Status Letter & Sundry Notice
Limark- Gulf Pipkin Federal #1
Unit 12, Section 34-26S-29E
Eddy County, New Mexico

Gentlemen:

Limark Corporation requests the Gulf Pipkin Federal #1 salt water disposal well be reinstated and returned to disposal. On February 19, the well was successfully re-tested for mechanical integrity (MIT) and approved by onsite District 2 NMOCD representatives.

All surface equipment and facilities are unchanged, all down hole equipment remains unchanged, and the wellbore is still in good mechanical order. Enclosed are original signed copies of the Federal Sundry Notice Form 3160-5. The MIT Chart is in the possession of Mr. Van Barton with the NMOCD Artesia Office who witnessed the MIT. The well is currently taking water at .4 barrels per minute at 600psi.

Please call if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "R. W. Hodge".

Robert W. Hodge
