

3. Any vegetation of the drill pad will comply with BLM specifications.
4. Any oil on pits will be removed or otherwise disposed of to USGS and BLM approval.
5. Rehabilitation operations will be completed as soon as practical after abandonment of the well and no later than the Fall after abandonment.

11. OTHER INFORMATION -

- A. Terrain - Low rolling hills.
- B. Soil - Rocky and sandy.
- C. Sparse vegetation - greasewood, mesquite and some native grasses.
- D. There are no buildings, ponds or water wells other than those noted above in Item 5. There are no archeological, historical or cultural sites in the area.
- E. Surface use is grazing.
- F. Effect on Environment - Drillsite, which is in nearly flat semi-arid, desert country, is in a low environmental risk area. The total effect of drilling and producing in this area would be minimal. No known archeological, historical, or cultural sites exist in the drill or road areas.
- G. Surface ownership - the drillsite and new access road is located on Federal lands.
- H. Open Pits - All unattended pits containing mud or other liquids will be fenced.
- I. Well sign - Sign identifying and locating well will be maintained at drillsite commencing with the spudding of the well.

12. OPERATOR'S REPRESENTATIVE - Field representative who can be contacted concerning compliance of this Surface Use Plan is:

W.R. Wardroup  
P.O. Box 1600  
Midland, Texas 79702  
Office Phone: 915-684-4411  
Home Phone: 915-694-5067

13. CERTIFICATION - I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by Exxon Corporation and its contractors and subcontractors in conformity with this plan and the terms
