

2. Abandoned Wells - None
 3. Temporarily abandoned wells - None
 4. Disposal wells - None
 5. Drilling wells - None
 6. Producing wells - None
 7. Shut-In Wells - None
 8. Injection wells - None
 9. Monitoring or observation wells for other resources - None
4. TANK BATTERIES, PRODUCTION FACILITIES AND LEASE PIPELINES -
- A. There are no tank batteries, production facilities or pipelines within one mile of the location controlled by lessee.
 - B. In the event of production, new facilities are shown on Exhibit "B".
 - (1) Proposed location and attendant lines by flagging if off of well pad shown on Exhibit "B".
 - (2) Dimensions of facilities are shown on Exhibit "B".
 - (3) Production facilities will be constructed on drillsite pad using gravel surface.
 - (4) Equipment and pit will be fenced and flagged to protect livestock and wildlife, if necessary.
 - C. Rehabilitation will be done on any disturbed areas no longer needed for operations after completion of the production facilities. This will consist of reshaping the existing surface and seeding as specified.
5. LOCATION AND TYPE OF WATER SUPPLY -
- A. Water will be pumped from a water well drilled on the pad, pumped from the existing well northeast of location, or pumped by pipeline from the existing spring on private land located approximately 1-1/2 miles northeast of wellsite. This spring is in Hay Hollow, east of the access road. The pipeline will be laid along the access road on the surface of the ground from the spring to the wellsite.
 - B. In the event water is obtained from the spring in Hay Hollow, the pipeline is shown on Exhibit "A" from the spring to the wellsite.
 - C. If it is feasible to drill a water well at the drillsite, this would be the preferred source.
