Re: Brushy Draw Deep Federal No. 1 Well
Sec. 24, T-26-S, R-39-E, Eddy County,
New Mexico *29*

Gentlemen:

Your application dated April 1, 1986, for hardship classification for the captioned well has been received. The condition of this well indicates serious violation of Rule 107(a), 108, 303 and, perhaps, other general rules. The well also appears to be a hazard to safety and health in the area.

We are cancelling the allowable to the well and hereby direct you to place this well in a safe condition by killing the well and, as soon as possible, place the well in mechanical condition conforming with the rules of this Division.

You have the right to request a hearing on this matter but we are very concerned that these serious violations have been known for over a year without repairs being made. Continuing violations will make you subject to fines for each day of violation.

Sincerely,

R. L. STAMETS,
Director

RLS/VL/dr
