

MULTI-POINT SURFACE USE AND OPERATIONS PLAN

MCKAY OIL CORPORATION
West Fork Federal Unit #9
SW1/4SE1/4 Sec. 24-5S-21E
Chaves County, N.M.

NM-32311

This plan is submitted with the application for permit to Drill the above described well. The purpose of the plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to be followed in rehabilitating the surface after completion of the operation so that a complete appraisal can be made of the environmental effects associated with the operation.

1. EXISTING ROADS:

- A. Exhibit "A" is a portion of a road map showing the location of the proposed well as staked. The well is approximately 30 miles North of Roswell, N.M.
- B. Directions: Heading North out of Roswell, New Mexico on U.S. 285 for approximately 23 miles and turn left on county road just before mile marker 137 (Cottonwood Road). Go approximately 1 3/4, the road will then turn to the west. Go west until you go thru a cattleguard. Once past the cattleguard you are on county road #35. Go west for 1 mile and go right at the fork in the road for 2 miles, turn north on new access road, go 2 1/4 mile to location road, which is to the left. Go in .4 mile.

2. PLANNED ACCESS ROAD:

- A. Length and Width: The new access road will be approximately .4 mile long and 14' wide.
- B. Surfacing Materials: Sand and gravel will be placed where necessary.
- C. Turnouts: One halfway
- D. Maximum Grade: No more than 3%.
- E. Drainage Design: Road will have drainage ditches on both sides and a crowned top, with culverts and/or low water crossings as necessary.
