| | | | | | |
| | | | | | |

Describe the proposed program. If this application is to DEEPEN or PLUG BACK give the data on the present productive zone and proposed new productive zone. Describe the blowout prevention program, if any. Use additional sheets if necessary.

Propose to drill the well to sufficient depth to evaluate the Cisco/Canyon - Morrow formations. After reaching TD, logs will be run and casing set if the evaluation is positive. If the Morrow is tested as economic we may attempt to establish Morrow production and will then make a Cisco/Canyon producer.

Acreage dedication for the Cisco/Canyon is 160 acres NW/4 of Section 13 and acreage dedication for the Morrow is 320 acres N/2 of Section 13.

I hereby certify that the information given above is true and complete to the best of my knowledge and belief.
