Steve,

Please see the attached transmittal for the Douthit Federal #6 PC, NMOCD Incident # NAPP2129253819. It was sent to BLM and not NNEPA. My apologies.

We will get some pictures from the 1/08/2020 Lateral C-7 Loop, NMOCD Incident #NCE2003538771 to confirm reclamation. I have attached the Ensolum's final report for the Lateral 10D-5, NMOCD Incident # NAPP2128130644. I will track down if it was submitted NNEPA by our Houston office.

I tired sending other documents in one email, but they got rejected from your server. So, there will be one more email.

Tom,

I've indicated in red below which sites have met our standards for closure and can be considered closed by NNEPA. I've also noted which sites need additional information before they can be closed. Please let me know if you have any questions. Thanks.
