3. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Richardson Operating Company respectfully requests the attached pipeline route be attached to original APD which was approved and recently extended until 12-12-04. The original APD did not specify the pipeline route (by Plat) and Richardson has subsequently permitted by the BLM (NMNM109631) a Lateral for gas/water, which will be the Lateral this well will tie into. Forthcoming Arch report by La Plata should cover the pipeline route for this well. All terms of the original APD remain the same.
This well has not been drilled.
