13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Dugan Production proposes to amend the APD dated 6-29-01 to also include testing and completing for production from the Gallup formation of the Gallegos Gallup Associated Oil Pool. Production from the Gallup and Dakota will be downhole commingled following stimulation in both zones. The Gallup completion will be a second well in the 320 acre south half spacing unit established for the Gallup completion in Dugan's Davis Federal No. 1. Applications for a non-standard location in the Gallup plus downhole commingling will be submitted separately.

14. I hereby certify that the foregoing is true and correct
