FORM APPROVED
OMB No. 1004-0137
Expires: March 31, 2007

SUNDRY NOTICES AND REPORTS ON WELLS

Do not use this form for proposals to drill or to recomplete an abandoned well. Use Form 3160-3 (APD) for such proposals.

SUBMIT IN TRIPLICATE- Other instructions on reverse side.

5. Lease Serial No. **A**
NMSF-079139 (WC)

6. If Indian, Allottee or Tribe Name

7. If Unit or CA/Agreement, Name and/or No.
FARMINGTON NM

1. Type of Well
 Oil Well Gas Well Other

2. Name of Operator **Kimbell Oil Company of Texas**

3a. Address
777 Taylor St., Suite P-IIA, Ft. Worth, TX. 76102

3b. Phone No. (include area code)
817-335-2591

8. Well Name and No.
No. 3 Federal A

9. API Well No.
30-039-05710

4. Location of Well (Footage, Sec., T., R., M., or Survey Description)
**790' FSL & 790' FWL
Sec. 35-T25N-R6W**

10. Field and Pool, or Exploratory Area
Basin Dakota

11. County or Parish, State
Rio Arriba, NM

12. CHECK APPROPRIATE BOX(ES) TO INDICATE NATURE OF NOTICE, REPORT, OR OTHER DATA

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Pursuant to approved Notice of Intent to Temporarily Abandon well dated and approved April 7, 2004, work was performed to unplug the 1-1/4" velocity tubing string in the well. This operation was successful and the well was unloaded of fluids by utilizing compressed air being circulated down the 1-1/4" tubing and up the 1-1/4" X 2-3/8" annulus. The well was returned to production, however, loaded up with formation fluids after only 3 days of production.

A shut-in surface pressure buildup was conducted and it has been determined that the Dakota Zone is depleted and uneconomical to produce. There appear to be no other zones of interest available to recomplete into from this wellbore and Kimbell is proposing to working interest owners to plug and abandon the well.

A subsequent Notice of Intent to Plug and Abandon this wellbore will be sent to the BLM for approval following the approval of Kimbell's working interest owners partners pursuant to our Operating Agreement.

14. I hereby certify that the foregoing is true and correct
