13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

**It has been determined that the production 2-3/8" OD tubing string has developed a leak. The proposed work will entail killing the well, installing and testing Blowout prevention equipment, pulling and laying down the tubing string then picking up and running a new tubing string.**

**The well will then be swabbed to recover kill fluid (3% KCL water), a plunger lift system installed and the well returned to production.**

**Work will commence as soon as a completion rig becomes available (estimated to be as soon as 2-3 weeks) from the date of this filing.**

**CONDITIONS OF APPROVAL**  
Adhere to previously issued stipulations.

14. I hereby certify that the foregoing is true and correct.
