	<input type="checkbox"/> Change Plans	<input checked="" type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We plan on plugging this well by placing cement from the top of the perms to 100' above the top of the Gallup with some extra cement for shrinkage. We will come back and tag to make sure cement is at least 100' above the top of the Gallup. We will then perforate at 148 feet which is 50' below the surface casing and circulate cement and fill the production casing and annulus to 50' below the bottom of the surface casing. We will let the cement dry and if necessary, add to top off at surface and will then install a dry hole marker.

surface casing: 11-3/4" @ 97.67'
production casing: 8-5/8" @ 2299'
perforations: 1936'-2266'

waiting approval

We will plug this well as soon as equipment and manpower are available.

14. I hereby certify that the foregoing is true and correct Name (Printed/Typed) Laura McClintock		Title VICE-PRESIDENT
Signature <i>Laura McClintock</i>		Date 12/1/2004
