(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

This well is on Navajo Trust land. There was no production during November & December 2004. There is a hole tubing and we are still waiting on a rig to become available to repair the problem. Once a rig becomes available, we will repair the problem. We ask that we be given until January 31 to accomplish this work. If no rig comes available by the time, we will request another extension.

14. I hereby certify that the foregoing is true and correct
