13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

After recompleat and review, it has been decided not to drill out the CBP set @ 7020'.

At this time we are only producing from the Mesaverde (C2) pool and the well is not DHC.

If future plans change to add the DK (C1) and to DHC we will give proper notice.
