	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Operator Lance Oil & Gas Company Inc. respectfully requests a change in the Application to Drill on this well. In a sundry approved 11/12/04, Lance Oil & Gas Company changed the casing and cementing to a 12-1/4" surface casing hole to conform to company drilling procedures. However, Lance Oil & Gas Company, Inc. has encountered unforeseen rig availability issues and has since employed a Beeman Bros rig that is geared up to drill 11" surface casing holes. The cementing volume will be reduced accordingly. "Waiting on Cementing" time will be as per cementing company recommendation, but will in no event be less than 6 hours.

Therefore, Operator, Lance Oil & Gas Company Inc., respectfully requests that the APD be further amended to drill an 11" surface casing hole and reduce the cement volume accordingly. No other changes to the APD approved 7/26/04 are requested at this time.

8 5/8" casing, 24#, J-55

14. I hereby certify that the foregoing is true and correct
