13 Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will performed or provide the Bond No on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamantion, have been completed, and the operator has determined that the site is ready for final inspection.)

Caerus Southern Rockies LLC recently acquired the Tsah Tah well in an acquisition from Rosetta. Caerus has been reviewing all the wells in the field and has done several "Coal Stims" on existing wells and has just recompleted a State well to the Fruitland Coal and fraced this well on 9/22/11. Because Caerus is still evaluating all the wellbores in the field and performing a detailed geologic analysis, Caerus respectively asks for a 9 month extension to the recently received notice to restore production or plug the well. Caerus therefore asks that the well be allowed to remain shut in for a period of 9 months to properly evaluate its productivity.

14 I hereby certify that the foregoing is true and correct Name (Printed Type) 303-565-4600		Title Operations Technician
