API No. 30-039-21827**

Dear Mr. Jones:

This letter addresses the questions your office had concerning the above referenced well. You asked us to verify that the "Point Lookout" and "Cliff House" members were non-productive. Based upon the geological well report, these formations had no indication of any oil or gas shows. Also, Mr. John Thompson of Walsh Engineering reviewed the Mud Log and Electric Logs and found no apparent shows of oil or gas. Enclosed is a copy of the original Well Completion Report that confirms our conclusions.

If you have further questions, please call me at (713) 626-1110.

Sincerely,

Melinda Billon
