If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Plan to plug the well by filling 2-7/8" casing with Type III neat cement from surface to perforations @ 1316'. Cement should have circulated back to surface during primary cement job as per calculations. The cement top is close to the surface. The surface casing-production annulus will be filled by pumping cement through 1" poly-pipe.
