13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Encana Oil & Gas (USA) Inc. (Encana) submitted an Application for Permit to Drill the Bisti H09-2510 01H oil well on December 30, 2011. Encana submitted a sundry notice on January 18, 2012 requesting that the spacing unit dedicated to the well be increased from 320 acres to 640 acres.

Encana would like to withdraw the Sundry Notice submitted on January 18, 2012 and replace it with this sundry notice. Encana would like to reduce the spacing unit dedicated to this well from 320 acres to 160 acres.

This change is requested due to the February 15, 2012 implementation of revised State of New Mexico oil and gas regulations that define a project area as an area that comprises one or more complete contiguous spacing units that are developed by the well (19.15.16.6 NMAC).
