Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		If YES, Volume Impacting the Watercourse
If a Watercourse was Impacted, Describe Fully. (Attach additional Sheets If Necessary)		

Describe Cause of Problem and Remedial Action Taken. (Attach Additional Sheets If Necessary)

Well was recompleted to MV. Water production was more than anticipated, which caused the water tank to overflow. Free standing water was recovered.

Describe Area Affected and Cleanup Action Taken. (Attach Additional Sheets If Necessary)

Inside Berm area. Soil was tilled with shovels to speed the drying effect.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state or local laws and/or regulations.
