FORMATION

13 Describe Proposed or Completed Operation Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones Attach the bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once Testing has been completed Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection)

7/25/12 - Notified Agencies - Tested wellbore for water isolation. DK producing 23 bwph. Requested permission to set CIBP 25' above Dakota perms @ 8,423' and TA the Dakota formation and produce as a Mesa Verde only. Will pressure test CIBP with packer. Verbal approval received from Steve Mason (BLM) and Brandon Powell (NMOCD). Brandon approved the TA of the Dakota for only 1-5 years only with the CIBP and no cement on top.

Note: After work completed th is well will produce as a standalone MV.
