Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection)

Hunt Oil is requesting a variance in regards to the BOP stack once 7" casing is set & cemented. Due to the distance from the cellar to the rig floor the is not enough space to install an annular preventer. Hunt is seeking permission to instead utilize a double ram 3M BOP system as described in the attached diagram.
