13 Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Attached is a drawing for the placement of the cathodic ground, rectifier and cable for the subject well.

## Stewart LS #8N

Section 28, T30N, R10W, N.M.P.M., San Juan County, NM

Drill ground bed approximately 162' south west of Stewart LS #8N well head at staked location. Install single well solar at staked location. Install cable to new ground bed and to Stewart LS #8N wellhead at lengths below. You may need 40' of casing and could have some boulders to drill through.

Stewart LS #8N Cables:

Negative: 165'

Positive: 18'

Total Ditch: 183'
