	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Due to seasonal closure restrictions, we were unable to meet the pit closure requirements as required by the Surface Owner and/or Surface Managing Agency. Energen cannot conduct construction or similar activities during seasonal closure.

We anticipated having this pit closed within ninety days after closure restrictions lifted on April 15, 2010, but due to additional activities required to meet OCD regulations, we are requesting BLM allow us the full extension that the OCD has issued which requires Energen to have the pit closed by July 31, 2010.
