**N/A**

Describe Cause of Problem and Remedial Action Taken.\*  
**A produced water pipeline leak was discovered in the North Sand Rock Gathering System. The pipeline was shut in and a roustabout crew was called in to excavate the impacted soils and repair the pipeline.**

Describe Area Affected and Cleanup Action Taken.\*  
**Vac truck removed produced water from the excavation. Produced water was hauled to an injection facility for disposal. Impacted soils will be transported to approved landfarm.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
