13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We plan to convert the above well from water injection to production as follows:

Plan to pressure test the casing (MIT) and flow lines. Remove injection equipment. Run in hole with production tubing, rods, etc. Set up pump jack, hook up electrical and flow lines, and place on production by July 31, 2005.

SUBJECT: Sundry Notices from Hart Oil & Gas Co. for Conversion of Mesa Gallup Unit
Injection Wells: Nos C-3, C-5, 11, and 5

My comments are:

MITs will be witnessed by an EPA representative and well must pass MIT before conversion is recognized by EPA.

If conversion fails to yield oil in paying quantities within 30 days of conversion, the well must be plugged and abandoned within 60 days.
