13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

The subject well has had LEL levels monitored for approx 2 1/2 months due to the discovery of a gas leak shortly after the well was P&A'd on 8/17/12. Steve Mason & Jim Lovato w/BLM and Brandon Powell/OCD were contacted. They requested that the LEL levels continue to be monitored until there were three consecutive zero readings. As noted on the attached spreadsheet, zero LEL levels were read on 10/25, 11/1, 11/8 & 11/14.
