13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Following plugging and abandonment done in 2001, the landowner was to have assumed ownership as a water well and provided documentation to that effect. The forms were never filed.

Four Star Gas & Oil is conducting a property transfer environmental review to determine what options are available. The review is estimated to take until June 1, 2013. At that time a 3160-5 subsequent will be filed with the BLM to complete the process.
