13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Burlington Resources requests that the subject well have its name changed from the Allison Unit NP #41 to the **Allison Unit #41**. This well in attached to the PA for the Blanco Mesaverde as part of the 13th Expansion with an effective date of 11/1/1965. So when this well was drilled it should have been drilled on a PA basis. The State's property code will need to be changed also from 6786 to **6784**. These changes are necessary so that BR can get the correct PUN number assigned to this well for reporting purposes. Attached is the new plat showing these changes.
