13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Encana Oil & Gas (USA) Inc. (Encana) wishes to modify pool names included in the project area dedicated to the Good Times D06-2309 01H well to include both the South Bisti-Gallup oil pool and the Basin Mancos gas pool. The project area for this well includes 322.6 acres in the W/2 of Sec. 6, T23N, R9W. The size of this project area will not change. Please see the following reasons for the modification to the pool names included in this project area:

On October 16, 2012, Encana submitted an Application for Permit to Drill the Good Times D06-2309 01H well, with a 322.6 acre project area dedicated to the well. The pool name assigned to this project area on the Application for Permit to Drill was the South Bisti-Gallup oil pool.

Recently, the New Mexico Oil Conservation Division (OCD) has informed Encana of the applicability and interpretation of the Basin Mancos Gas Pool (Order Number 12984, Pool Code 97232), which applies to the Good Times D06-2309 01H well. Encana wishes to modify the pool names for the project area to include both the South Bisti-Gallup oil pool and the Basin Mancos gas pool. The project area will therefore consist of two (2) Standup 80's (160 acres) in the South Bisti-Gallup oil pool, located in SW4 of Sec. 6, T23N, R9W, and an unorthodox spacing unit of 160 acres for the Basin Mancos gas pool, located in the NW4 of Sec. 6, T23N, R9W. An updated C-102 is included with this sundry.

Furthermore, Encana will also file with the OCD a Non-Standard Location Application and a Downhole Commingling Applications for the BHL for this well, and notify the appropriate parties.
